

Laboratory Assistant

Position Summary

Lung Cancer Proteomics is a growing biotechnology company with a mission of developing sensitive and specific blood tests to detect high mortality cancers early, thereby increasing the survival rate and improving the quality of life for cancer patients. We are also at the forefront of COVID testing as there is a need for more testing capacity.

We are seeking a **Laboratory Assistant** to join our dynamic team. The candidate will provide support to our CLIA lab under the direct and constant supervision of a Laboratory Supervisor or Clinical Laboratory Scientist. The preferred candidate will participate in the daily activities of the laboratory to maximize turnaround time, equipment, and material utilization while adhering to quality standards. The candidate may also process samples depending on qualifications. The candidate must be meticulous and able to troubleshoot issues.

Primary Responsibility

- Follow laboratory procedures for specimen receipt, handling, processing, and storage.
- Organize and maintain specimen inventory using lab LIS.
- Assists the CLS in laboratory bench supply set up, reagent retrieval and preparation, vortexing, and centrifuging, as well as sample preparation processes.
- Organize and maintain inventory of reagents, samples, consumables, and equipment.
- Performs preventive maintenance of laboratory equipment.
- Assists in the performance of quality control procedures.
- Record test results, maintains quality control records for equipment (i.e. temperature log).
- Follows all safety procedures and policies.
- Monitors and reports malfunctions to laboratory management.
- Performs other duties as assigned by laboratory management.

Education and Experience

- Associate or bachelor's degree in a biological science.
- 1-year lab related experience. 2-year accessioning experience preferred.
- Experience in a high complexity CLIA laboratory preferred.

Skills

- Proficiency in using a computer and computer applications
- Strong attention to detail, accuracy, and commitment to quality
